D-A SERIES

HIGH PERFORMANCE
POLISHING COMPOUNDS

UNO SERIES

D-A COARSE is a high-performance compound from RUPES designed for maximum efficiency in multiple industries. This fast cutting, bodyshop safe, compound is ideal for technicians who want quick defect removal, a smooth user experience, low dusting, easy wipe off, and high gloss finishing from a single product. D-A COARSE is optimized for incredible all-around performance on BigFoot dual-action random orbital and gear-driven orbital tools. When paired with RUPES coarse foam, wool, or microfiber pads D-A COARSE is capable of removing 1500 grit sand scratches on most automotive paint surfaces, gelcoat, and similar materials.

D-A FINE is the result of extensive testing to develop a fine polish that combines noticable cutting performance with impressive finishing capability. The proprietary formula developed and blended in-house by RUPES is designed to perform with both large stroke random orbital polishers and gear-driven orbital polishers. Combined with RUPES specially designed yellow foam, wool, or microfiber pads DA-FINE delivers a much higher level of defect removal when compared to traditional fine polishing compounds, yet still provides the incredibly high finish quality and easy wipe off expected from a product formulated for final finishing after a coarse cutting compound. RUPES D-A FINE is body shop safe and performs well on clear coat, single stage paint, gelcoat, varnish, and more.

FEATURES AND BENEFITS

- High-performance cutting compound
- Durable lubrication system for an extended polishing cycle and longer working time
- Low dusting formula reduces post-compound cleanup work
- One-step moderate-to-severe defect removal and finishing on most paints
- Sanding mark and severe defect removal
- Recommended for random orbital or gear-driven polishers

FEATURES AND BENEFITS

- Excellent cutting performance relative to most "fine" polishing compounds
- New micro-abrasive technology and proprietary blend enhance finishing ability
- Easy wipe-off, for fewer towel marks on soft paints or delicate surfaces
- Easy application when used with RUPES color-coordinated pad system
- One-step light defect removal and finishing on most paints
- Can also be excellent 2nd step polish following D-A Coarse Compound
- Recommended for use with BigFoot Random Orbital or Gear-Driven tools
